MORE DETAILS

DAY & TIME We will deliver your orders every THURSDAY morning between 4-8 AM. Our goal is to make sure all of your orders are at your house before you need to leave in the morning. That way everything can quickly go into your refrigerator, freezer, crockpot, or oven!

DROP-OFF We will have each family put a cooler outside their front door the night before delivery (Wednesday evening). Make sure it is large enough to fit your order. With coolers in place, we will simply put your orders inside and go. You do not have to be awake or meet us at the door!

DELIVERY AREA We don't have a set delivery radius at this time, so let us know if you're interested and we'll let you know what we can do. For folks that are quite a ways from the farm, we recommend a small community group of neighbors working together to make our trip possible. Or we may simply require a slightly higher delivery fee.

WEEKLY ADD-ONS:

As farmers we find it helpful to have a set schedule for weekly orders because they create both stability and predictability, but we want to offer as much freedom and flexibility to you as possible. So every week you have the option to do weekly Add-Ons from our entire inventory list. Maybe you are craving bacon or you need a pie when your in-laws come to visit. These are the items you don't have to commit to every week but can order occasionally at your convenience. It is also a way to sample what we have on a smaller scale. If you are interested in the Pork Bundle, but just not sure if you'll love it, you can add 1 package of breakfast sausage or maybe some ribs to your order to see what your family thinks. Remember, this order is just a one-time order for one week. If you fall in love with something and really want to make it part of your weekly order, send us an email and we will check the availability to determine if that is possible. All Add-Ons must be submitted to us by Saturday at 1pm.
